AngioDynamics Reports Fiscal 2016 Second Quarter Results

- Net sales of \$89.2 million
- GAAP loss of \$0.01 per share; Non-GAAP adjusted EPS of \$0.14
- · Operating cash generation of \$9.6 million

ALBANY, N.Y., (January 7, 2016) – AngioDynamics (NASDAQ: ANGO), a leading provider of innovative, minimally invasive medical devices for vascular access, surgery, peripheral vascular disease and oncology, today reported financial results for the second quarter of fiscal year 2016 ended November 30, 2015.

"In the second quarter, we managed the business effectively, despite lingering headwinds, and generated net sales of \$89.2 million and adjusted EPS of \$0.14, both of which were in the mid-range of our guidance," commented Joseph M. DeVivo, president and chief executive officer. "Our team has worked diligently to build a culture committed to quality and compliance and, in the quarter, our efforts were validated when the FDA removed the remaining warning letters against the Company. Additionally, we continue to execute our operational excellence plans and expect to complete the manufacturing transition from Queensbury to Glens Falls in January, which will further increase our operating leverage and improve cash flow generation. AngioDynamics now has a strong operational and regulatory foundation that we believe will contribute to top line growth, margin expansion and continued strong cash flow from operations.

"From a products perspective, overall Peripheral Vascular business grew 3%, driven by a strong performance in Thrombus Management, which grew 17%. In addition, BioFlo continued to grow across all product segments in our Vascular Access business, including a strong sales quarter for our midline and dialysis products. BioFlo now represents 41% of our Vascular Access franchise. In Oncology/Surgery, our growth driver products, Microwave and NanoKnife, showed significant procedural and utilization growth offsetting slower capital sales. We believe procedural and utilization growth are a better indication of the opportunity for those two products.

"As we begin the second half of our fiscal year, we are moving past the Morpheus withdrawal and foreign currency headwinds that have impacted our recent top line performance. We are now fully focused on building on our improved operational foundation to continue our commercial momentum, especially with our growth driver products."

Second Quarter 2016 Financial Results

Net sales for the fiscal second quarter were \$89.2 million, compared with \$92.1 million a year ago. On a constant currency basis and excluding the impact of the Morpheus product discontinuance, sales were down 1% compared to the second quarter last year.

International net sales were \$17.8 million compared to \$19.0 million a year ago, which included a 5% negative impact on revenues from foreign currency headwinds.

The Company's GAAP net loss was \$0.4 million, or \$0.01 loss per share, compared to a net income of \$1.3 million, or \$0.04 per share, in the second quarter of fiscal 2015.
