ALBANY, N.Y., April 07, 2016 (GLOBE NEWSWIRE) -- AngioDynamics (NASDAQ:ANGO), a leading provider of innovative, minimally invasive medical devices for vascular access, surgery, peripheral vascular disease and oncology, today reported financial results for the third quarter of fiscal year 2016 ended February 29, 2016.

"We are pleased with our third quarter performance, including contributions from our key growth drivers, which was reflected in our net sales of \$87.4 million, adjusted EPS of \$0.15 and free cash flow of \$11.7 million," stated Michael Trimarchi, interim Chief Financial Officer. "The Peripheral Vascular business grew 8%, and included AngioVac growth of 28%. Demand for BioFlo continued during the quarter, which saw growth across all product segments in the Vascular Access business, and now represents 42% of the franchise. In Oncology/Surgery, our higher-margin growth driver products, Microwave and NanoKnife, continued to show procedural and utilization growth offsetting slower capital sales."

Trimarchi added, "Third quarter results met our expectations, but top-line growth rates continue to reflect ongoing headwinds that we are facing, including competitive dynamics in vascular access, reimbursement challenges and slower growth internationally."

"I believe there is a strong market opportunity for our products and a solid foundation upon which to grow," said James Clemmer, President and Chief Executive Officer of AngioDynamics. "My focus will be to put us on a pathway toward sustainable and profitable growth through disciplined execution, efficient resource allocation and value-driven innovation."
