EXPLANATORY NOTE

For convenience purposes in this filing on Form 10-Q/A, AngioDynamics, Inc. together with its subsidiaries, is referred to as "AngioDynamics," the "Company," "we," "our" or "us".

We are filing this Amendment No. 1 (this "Amendment" or "Form 10-Q/A") to our Form 10-Q for the second quarter ended November 30, 2016 to amend our conclusion on the effectiveness on our disclosure controls and procedures following an inspection by the Public Company Accounting Oversight Board of PricewaterhouseCoopers LLP's ("PwC") audit of our May 31, 2016 financial statements and internal controls over financial reporting, as discussed below. Our Annual Report on Form 10-K for the year ended May 31, 2016 (the "Form 10-K" or the "Original Form 10-K") was originally filed with the Securities and Exchange Commission (the "SEC") on August 1, 2016. At the time of filing our Form 10-K, we determined that our disclosure controls and procedures ("DC&P") and our internal controls over financial reporting ("ICFR") were each effective as of May 31, 2016. Subsequent to that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our DC&P and ICFR were not effective as of May 31, 2016.

Management of the Company, after discussions with PwC and the Audit Committee, determined that Management's Report on Internal Control over Financial Reporting included in the Form 10-K should no longer be relied upon due to a material weakness specifically related to the goodwill impairment test as further discussed in Item 4, *Controls and Procedures*. The material weakness was not remediated as of November 30, 2016.

The material weakness did not result in a misstatement of the consolidated financial statements for the quarter ended November 30, 2016.

See "Items Amended by this Filing" below for a description of the items of the Form 10-Q originally filed with the SEC on January 6, 2017 (the "Original Form 10-Q") that are being amended pursuant to this Amendment.

Items Amended by this Filing

The following items of the Original Form 10-Q are being amended:

Item 4: Controls and Procedures

Other than as described above and the inclusion with this Amendment of new certifications by management, and related amendments to the List of Exhibits, this Amendment speaks only as of the date of the Original Form 10-Q and does not amend, supplement or update any information contained in the Original Form 10-Q to give effect to any subsequent events. Accordingly, this Amendment should be read in conjunction with the Original Form 10-Q and our reports filed with the SEC subsequent to the Original Form 10-Q.

Item 4. Controls and Procedures (as amended).

Evaluation of disclosure controls and procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based solely on the definition of "disclosure controls and procedures" in Rule 13a-15(e) promulgated under the Exchange Act. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Under the supervision of our Company's Chief Executive Officer and Chief Financial Officer, we carried out an evaluation of our disclosure controls and procedures as of November 30, 2016. At the time our Quarterly Report on Form 10-Q for the quarter ended November 30, 2016 was filed on January 6, 2017, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of November 30, 2016. Subsequent to that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of November 30, 2016 because of the material weakness in our internal control over financial reporting described below.

We did not design and maintain effective internal controls over the accounting for the annual goodwill impairment test. Specifically, we did not design and maintain effective controls to review in sufficient detail the cash flow projections and significant valuation model assumptions used in the goodwill impairment test as of December 31, 2015.

A material weakness is a deficiency, or a combination of deficiencies in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim consolidated financial statements will not be prevented or detected on a timely basis. This material weakness did not result in a misstatement to the consolidated financial statements. However, this material weakness could result in misstatements that would result in a material misstatement of the consolidated financial statements that would not be prevented or detected.

In response to this material weakness, our management performed additional analysis and procedures, in order to conclude that despite the material weakness reported above, the consolidated financial statements included in this report fairly present in all material respects the Company's financial condition, results of operations and cash flows for the periods presented and that this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report.

Remediation Plan

We developed a plan to enhance our internal controls over financial reporting for the goodwill impairment test, which we believe also will address the material weakness discussed above, including the specific remediation initiatives described below:

- Update the goodwill impairment control to ensure that it is designed appropriately.
- Ensure sufficient documentation is retained if the discounted cash flow method is required for performing the goodwill impairment test including detailed procedures over the cash flow projections and valuation model assumptions.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting for the fiscal quarter ended November 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
