Explanation of Responses:

- On July 23, 2021, the reporting person filed a Form 4 to report, among other items, the granting of performance rights and stock options of AngioDynamics, Inc. (the "Company"), which contained administrative errors as to the terms of the performance rights and the exercise price of the options.
- Each performance right represents a contingent right to receive one share of common stock of the Company ("Common Stock"). The target number of shares of Common Stock is set forth in columns 5 and 7 of Table II. Between 0% and 200% of the target number will be earned based on total shareholder return relative to a peer group of companies over a three-year performance period (with a potential upward or downward 20% adjustment on the calculated achievement based on total shareholder return relative to a peer group of companies over a three-year performance period (for a total potential payout of up to 240% of the target number in the aggregate)) in accordance with performance metrics as determined by the compensation committee. Any shares that do not vest at the end of the performance period will be forfeited.
- These stock options vest in four equal annual installments beginning on July 21, 2022, such that 25% of the options will vest on each of July 21, 2022, 2023, 2024 and 2025.
