**ANGIODYNAMICS NET INCOME UP 60% ON 30% INCREASE TO RECORD NET SALES IN SECOND QUARTER OF FISCAL 2006**

**Conference call to begin today at 4:30 pm ET**

QUEENSBURY, N.Y. (December 19, 2005) • **AngioDynamics, Inc. (Nasdaq: ANGO)** today announced financial results for the 13 and 26 weeks ended November 26, 2005. Highlights of the second quarter of fiscal year 2006 (September through November) include:

- Net sales grow 30% to a record \$18.7 million in the second quarter of fiscal 2006, compared with \$14.4 million in the second quarter of fiscal 2005
- Net income up 60% over the second quarter of fiscal year 2005 to \$1.7 million, or \$0.13 per diluted share
- Gross profit for the quarter up 35% over the second quarter of fiscal year 2005 to \$10.8 million
- Gross profit margin of 58%, up from 56% for the second quarter of fiscal year 2005
- Signs agreement with Bioniche Pharma Group Limited for distribution of Sotradecol™ for the treatment of small, uncomplicated varicose veins
- Introduces Sotradecol at the 19<sup>th</sup> Annual Congress of the American College of Phlebology

Net sales for the second quarter of fiscal 2006 increased 30% to \$18.7 million, up from \$14.4 million for the second quarter of fiscal 2005. This increase was primarily due to strong growth from the Company's newest products, along with continued market share gains across our diversified product portfolio. All of the revenue gains were due to increases in unit sales.

Angiographic product sales increased 18% over the second quarter of fiscal 2005, with sales of \$5.2 million for the second quarter of fiscal 2006. Sales of hemodialysis products rose 24%, or \$906,000, over the prior year second quarter to \$4.7 million. Sales of Dura-Flow™ and EvenMore™ chronic dialysis catheters were responsible for substantially all of the increase in hemodialysis product sales for the 2006 fiscal second quarter. Sales of the image-guided vascular access line, which includes the Morpheus® CT PICC, were up 103%, to \$2.9 million, compared with the 2005 fiscal second quarter. Sales of VenaCure™ products grew 46% to \$2.7 million, an \$847,000 increase over the

---

prior year second quarter. During the fiscal 2006 second quarter, the Company sold 27 lasers, bringing the total laser units sold in the field to 332. Sales of disposable kits increased 109% to \$1.9 million compared with the fiscal 2005 second quarter.

Net income for the fiscal 2006 second quarter was \$1.7 million, or \$0.13 per diluted share. This represents a 60% increase in net income, and a 44% increase in diluted earnings per share, over the prior year second quarter.

Gross profit for the second quarter of fiscal 2006 was up 35% to \$10.8 million, compared with gross profit of \$8.0 million for the prior year second quarter. Gross profit margin for the fiscal 2006 quarter reached 58%, up from 56% for the comparable 2005 quarter. A favorable product mix, resulting from increased sales of higher margin products, such as the Morpheus CT PICC, VenaCure disposable kits and EvenMore catheters, accounted for all of the 200 basis point increase.

Operating profit for the second quarter increased 34% to \$2.4 million, compared with \$1.8 million for the second quarter of fiscal year 2005, and the operating profit increased to 13% of net sales, up from 12% for the second quarter of fiscal 2005.

“Our second quarter results were outstanding, and we are especially excited that our record-breaking \$18.7 million in quarterly sales came on excellent unit growth across our diversified product portfolio as well as from our newest products” commented Eamonn P. Hobbs, President and CEO of AngioDynamics. “The uptake for our Morpheus CT PICC continues to be extremely strong, with sales reaching \$1.9 million for the fiscal second quarter. Our VenaCure™ product line for the treatment of severe varicose veins continues to be a solid contributor to our top and bottom line results. We sold 27 lasers in the fiscal second quarter and sales of our disposable kits, which provide a source of high margin recurring revenues, more than doubled over the second quarter of fiscal 2005. At the 19<sup>th</sup> Annual Congress of the American College of Phlebology meeting in November, we introduced Sotradecol, which provides interventional radiologists and vascular surgeons with another option to treat spider veins.”

“We are particularly proud of our 34% increase in operating profit, 60% growth in net income and 44% rise in earnings per diluted share for the fiscal second quarter. These numbers reflect our continued commitment to

provide innovative products to our physician customers and the solid management experience of the AngioDynamics team,” remarked Mr. Hobbs

The effective tax rate for the 2006 quarter was 37%, compared with 43% for the second quarter of fiscal 2005. The decrease was primarily due to R&D tax credits attributed to the current fiscal quarter.

As of November 26, 2005, cash and short-term investments were \$27.5 million, a decrease of \$1.3 million during the fiscal 2006 second quarter. This was due to a \$1.5 million installment payment to obtain licensing rights to distribute Sotradecol™ from Bioniche Pharma Group Limited. The distribution agreement will be discussed further during today’s conference call. Cash flow continues to be quite strong, as the Company generated \$1.0 million in cash from operations during the current fiscal quarter.

---

For the 26 weeks ended November 26, 2005, net sales were \$35.1 million, up 28% from \$27.5 million for the comparable 2005 period. The increase was due to expanded sales across our diversified product line, most notably the Company’s Morpheus CT PICC and VenaCure products. Net income for the 26-week period ended November 26, 2005 was \$2.9 million, up 64% from net income of \$1.8 million for the comparable fiscal 2005 period, and diluted earnings per share increased to \$0.23 from \$0.15.

Separately, biolitec, Inc., the supplier of lasers, laser fibers, and technology used in our VenaCure laser systems under a supply and distribution agreement, has notified us that it believes that it is not required to indemnify AngioDynamics with respect to the patent infringement lawsuits filed against us by Diomed, Inc. and VNUS Medical Technologies Inc. We have been paying a premium to biolitec for these products, primarily in return for the indemnification provisions in the supply agreement covering third-party patent infringement actions. We are in discussions with biolitec management with the goal of avoiding a breach of contract and subsequent legal action to enforce our rights under the agreement.

#### Fiscal Year 2006 Financial Guidance

The Company is reiterating its fiscal 2006 financial guidance disclosed on October 18, 2005. AngioDynamics expects net sales growth to exceed 26%, to at least \$76.0 million, compared with fiscal 2005. Year-over-year net income growth is expected to exceed 48%, to \$6.7 million, which includes an anticipated one-time charge totaling \$366,000, net of income taxes, to be incurred in connection with the Company’s requirement to comply with Section 404 of the Sarbanes-Oxley Act by May 2006.

Without the effect of these one-time expenses, net income would be expected to reach \$7.1 million, or 56% net income growth from fiscal 2005. The Company is providing this guidance to demonstrate that its performance continues to be consistent with the guidance it has provided since its initial public offering in May 2004, including the updated guidance provided in October 2005, but for the effect of these one-time expenses. R&D and SG&A expenses for the fiscal year 2006 are expected to be approximately 8.5% and 35% of net sales, respectively. The Company expects its effective tax rate to be approximately 37% for fiscal year 2006. AngioDynamics anticipates that its discussions with biolitec will not affect this financial guidance.

#### Conference Call

AngioDynamics management will host a conference call to discuss this announcement today beginning at 4:30 p.m. Eastern Time. To participate in the call, please dial (866) 578-5747 toll-free from the U.S., or (617) 213-8054 from outside the U.S. Please enter the passcode 53147624.

A telephone replay will be available from 6:30 p.m. Eastern Time on December 19, 2005 through 11:59 p.m. Eastern Time on December 26, 2005 by dialing (888) 286-8010 (domestic) or (617) 801-6888 (international) and entering conference ID number 30654415.

In addition, individuals may listen to the call on the Internet by visiting the investor relations portion of the Company’s web site at <http://investor.angiodynamics.com/>. A recording of the conference call will be archived there for 12 months.
