**ALBANY, N.Y., (July 13, 2016)** – AngioDynamics (NASDAQ: ANGO), a leading provider of innovative, minimally invasive medical devices for vascular access, surgery, peripheral vascular disease and oncology, today reported fourth quarter and full year financial results the 2016 fiscal year ended May 31, 2016.

“Our fourth quarter results reflect a solid quarter of revenue and adjusted EPS growth driven primarily by outperformance in our Peripheral Vascular business, which saw a 10% increase over the prior year period,” said Jim Clemmer, President and Chief Executive Officer of AngioDynamics. “The Peripheral Vascular business growth was driven by the successful launch of Asclera, as well as opportunities created by the recent Cook Medical recall. We also drove strong free cash flow generation during the quarter of \$18.1 million, which was primarily attributable to improved inventory management.”

Clemmer continued, “In addition to ensuring that we delivered solid fourth quarter financial results, during my first quarter with AngioDynamics I have spent a significant amount of time focusing on a plan that will increase our operating efficiency, facilitate investment in areas where we have a competitive advantage and bring products to market that improve patient outcomes and reduce costs to the health system. As we move in to 2017 fiscal year, this focus on execution, excellence and innovation will enable us to build upon our recent momentum and put us on a pathway to sustainable and profitable growth.”
